ABOUT US

TRUSTECH established in 2004, to contribute to the renaissance of the Egyptian industry through a group of international brands working in the field of metalworking. It offers a range of integrated solutions starting from CNC machines and developing manufacturing systems to the cutting tools used in factories and production workshops.

TRUSTECH for Engineering & Trading has been in business representing top manufactures for over 17 years, Most of these come from South Korea.

The high technical expertise of our team of engineers helps us to provide excellent technical support to our customers and build a long-term relationship based on mutual trust and successful business precedents between us.

MISSION

Through our technical expertise and selling skills, we provide the end user and distributor with increased productivity and profitability. This will be achieved by assisting our distributors and end users in presenting and implementing the quality products that we represent in a professional manner.

VISION

To be a Market leader of machinery, industrial solutions, and Consultancy, for Metalworking customers in the region.

OUR TEAM

our team is the secret to our success. Each of our employees is amazing in their own right, but together they are what makes Trustech such a fun and rewarding place to work.

All of our employees are unique individuals who are united by a set of five core values that apply to everything we do within the agency.

Be Bold: be proactive, make decisions, take responsibility, try new things.

Be Curious: ask questions, do some research, learn new techniques, study our clients and their industries.

Be Together: play an active role in the team, support your colleagues, collaborate, have fun.

Be Connected: meet people, make contacts, build relationships, see the bigger picture.

Be Better: look for ways to improve, challenge yourself, never stop learning, strive to be the best.

Building, developing, training, retaining and engaging the Trustech team is a daily commitment. We work hard every day to make sure that our people are supported and empowered to deliver exceptional results for our clients.

EXPERIENCE THE NEW TECHNOLOGY

World Top Class Quality HYUNDAI WIA Machine Tools Series

HYUNDAI WIA Machine Tools

Since its formation in 1976, Hyundai WIA has been steadily accumulating know-how in the precision machine industry. From a position of leadership in its South Korea market, the company is spreading its wings to serve the global market. From unique design to production and after-sales service, Hyundai WIA's machine tools are products which provide higher productivity and higher precision.

Turning Centers

Over 100 Models from 2-axis to 9-axis

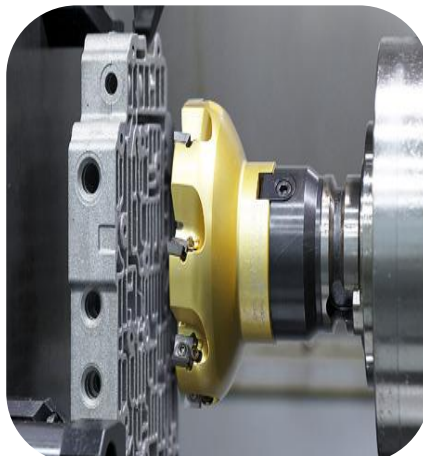

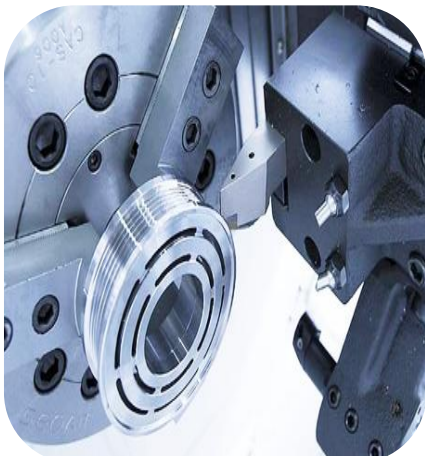

Machining Centers

Over 70 Models Vertical & Horizontal Machining Center

Factory Automation

Automation system for process & assembly lines

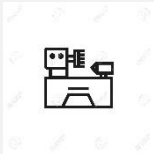

FALCON Machine Tools

Falcon Machine Tools Co. Ltd. was established in the year 1972 in Taiwan, one of the leading manufacturer and supplier of a premium range of cnc grinder, cnc Machining center, and cnc turning center.

Shandong Deed Precision Machine Tool., Ltd. is located in Yanzhou District, Jining City, Shandong Province, with a registered capital of 220 million yuan CNY, covering an area of 140,000m² and employing more than 400 people, and is a director unit of China Machine Tool & Tool Industry Association and a key enterprise of high-end equipment manufacturing in Shandong Province. The company is committed to the research and development, manufacturing, and sales of high-grade CNC machine tools, including high-speed vertical machining centers, large gantry machining centers, high-precision five-axis machining centers, etc., which are widely used in aerospace, military ships, automotive, engineering machinery, 5G communication, mold, and other industries. The company vigorously implements the strategy of "going out and coming in", and has reached comprehensive strategic cooperation with Rottler, a famous German CNC machine tool manufacturer, to jointly develop world-leading high-grade precision machine tools and explore the global market together, and has set up a subsidiary company in Germany, "Hipreed Technology Co. "Ltd. in Germany, established a high-end machine tool R&D center and training base, and fully implemented international operation, realizing the synchronous development of German technology and Sino-German manufacturing

The company has been awarded as "National High-tech Enterprise", "National Science and Technology Small and Medium-sized Enterprise", "Excellent Enterprise in Equipment Manufacturing Industry of Shandong Province", "High-end Brand Cultivation Enterprise of Shandong Province", "Excellent Private Enterprise of Jining City", etc. It has four provincial-level scientific research platforms, and its products have been awarded "Top Ten Product Quality" in China Machine Tool Industry, "China Machine Tool Industry Award - Chunyan Award", "Second Prize of China Machinery Industry Science and Technology Award" and "First Prize of Shandong Machinery Industry Science and Technology Award", etc.

Vertical Machining Center

Our Vertical machining centers mainly include **VMC** and **VL** two series, VMC series include VMC50B, VMC50C, VMC60B, VMC60C, VMC70B, VMC70C.

Gantry Machining Center

We introduce German mineral casting material for our base and column. It has better shake absorption and Low thermal expansion. Worktable, sliding seat, and headstock are supported by heavy-duty roller linear rails to ensure high rigidity and reduce the weight of moving parts.

5-axis Machining Center

A Five-axis machining center is a machining center with high scientific and technological content and high precision, which is specially used for machining complex curved surfaces.

PORTFOLIO

Through our technical expertise and selling skills, we provide the end user and distributor with increased productivity and profitability. This will be achieved by assisting our distributors and end users in presenting and implementing the quality products that we represent in a professional manner.

TURNING

YG-1 means cultivating good will

This translates into providing high quality cutting tools at a reasonable price. This goal is achieved due to the competitive spirit of our company.

We export to 53 countries and have manufacturing partners in the United States, Ireland, South Korea and China.

We serve the volume Drills, Taps, End Mills, Spade Drills and Rotary Tooling and are setting the pace and are known as the fastest growing company in this industry. High worker productivity has allowed us to have strong growth over the last 22 years, and our economies of scale allow us competitive advantages. Only the highest quality materials and machinery are used in the manufacturing of our products.

YG-1 U.S.A. office and warehouse is located in Chicago, maintains a large inventory and achieves a 98% fill rate. Our Chicago staff provides courteous and efficient service. We provide easy to use, colorful, and informative literature and prompt technical support. We have Field Sales Staff covering United States. They will be pleased to speak with you about your needs. The new online order processing system will save you time and lower ordering costs and reduce errors. As we offer new and exciting products, we invite you share in these competitive advantages and grow with us.

Amazing Prices on Milling Kits!

- **KCERA is a tooling system company which established in July 2013 and is leading the way in realizing customer satisfaction with the best cutting tool solutions.**
- KCERA has established itself as a specialized tooling system company from tool design, development and test with know-how and technology accumulated through the efforts of all employees since its establishment.
- **Constructing medium and high valued brand images**
- KCERA pursues customer's value through high quality sales activities, consulting and competitive price in domestic and overseas cutting tool market with premium new grade, C/B development and superior quality management compared to other companies.
- **Small Difference Makes Luxury Tools**
- KCERA strives to contribute to the cutting tool cost savings with slogan "Small Difference Makes Luxury Tools" and the experimental spirit of exploring and developing the infinite possibilities of cutting tools. I will do my best to
